ARE YOUR **NOSTRILS**

There are a dozen different diseases which attack the nostrils, throat, ear tubes and lower air passages. Each of these diseases begins its start like an ordinary cold. They cause the nostrils to fill up and close or they bring on a discharge. These diseases differ from a com-mon cold in this way, they hang on and don't get well. With these troubles the nostrils close one at a time or both close or there is a discharge from the nostrus or dry crusts form in them. In some the throat feels dry as if sand were dusted on it, or the throat tickles like a horsehair had lodged in it. There is a constant desire to be clearing the throat, there may be dropping in the

All these conditions are wrongly supposed to be one common complaint, namely, catarrh. Each of these diseased conditions requires a special '-eatment to cure it. Hence the so-called catarrh treatments and remedies usually fail to cure them. Disease on the nostrils and Atherton Black with forgery in the throat can only be mastered by an exthird degree was promised early to-day pert specialist who, after examining the by District-Attorney Whitman.
